Southside Constructors Inc., headquartered in Belmont, and DAS Architecture are transforming the old Fat City Deli property into a distinctive modern six-story condominium/retail complex. Located in the NoDa Arts District, this new multi-use development will consist of 26 residential loft-style condominiums as well as 8,000 square feet of retail and restaurant space. The condominiums are comprised of contemporary two and three-story unit lofts ranging from 700 to 1,670 square feet with interior mezzanine levels, balconies, and scissor/steel spiral staircases.
