Re: Southside Constructors, Inc.

To Whom It May Concern:

I am writing to recommend Southside Constructors, Inc. as General Contractor for potential new projects in your area.

Narmour Wright Associates Architecture has enjoyed a strong working relationship with Southside Constructors, Inc. during the construction of the Belmont Police Station. NWA is serving as the Architect-In-Charge for the City of Belmont in this endeavor and looks forward to a successful completion of this project in the fall. Our hope is that Southside's efforts will soon manifest into a facility of which both they and the City can be very proud.

Please do not hesitate to contact me to discuss in greater detail if you so desire. Thank you for your time and good luck in your future ventures.

Sincerely:

Narmour Wright Associates
