

Steele Creek Family Practice Examines Their Need For a New Medical Facility

Presbyterian Healthcare chooses General Contractor for interior upfit

Novant HEALTH®

Presbyterian HEALTHCARE

Southside Constructors, Inc. worked with the architectural firm of Wright McGraw Beyer on the interior upfit of this 8,500 square foot medical facility. The upfit of this recently completed shell building included the construction of exam rooms, as well as renovations to provider and business offices, laboratory facilities, triage stations, minor procedure rooms, vitals stations, nurses station, diagnostic x-ray and dark room, pediatric waiting room, medication and clinical storage area, housekeeping, break room and waiting area. The installation of medical equipment supplied by the owner as well as finishes throughout the facility included new carpet, VCT Tile, paint and more.

The project consisted of:

- General demolition
- General, mechanical, plumbing and electrical construction
- Installation of X-Ray equipment
